

# FREEZE-THAW AND DE-ICING

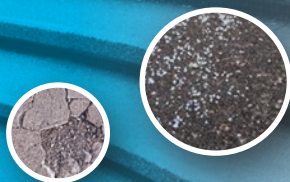

Protect and extend the life of concrete surfaces from elements of winter.

## PROTECTION SYSTEMS

Protecting sidewalks, stairs and building entrances from the damaging effects of deicing chemicals, water and chloride ion intrusion is not easy.

- **Eliminate salt-tracking to interior surfaces**
- **Fast acting, easy spray application**
- **Environment-friendly, safe on grass, plants and shrubs.**

- **Dramatically reduces scaling, spalling and salt damage**
- **Hardens concrete surface making it more durable and less porous**
- **Protects against staining and efflorescence**

### **Pentra-Melt™**

Patented Premium Snow & Ice Melt ~ Anti-ice / De-icing Formula

FMC Lithium

### **Pentra-Shield™**

Concrete Surface Hardening Densifier with Anti-Scale and Freeze-Thaw Protection
